

LUX B1010 / B1020

Elegant, moulded compound wall hatches.

The LUX B design is based on the same principles used to develop the LUX loft ladders. LUX B is a popular and beautiful series of high quality wall hatches from MidMade. The white moulded compound hatches blend elegantly into most home environments and provide the ultimate finish and performance. The hatches are available in two standard sizes: B1010 and the higher B1020. Both models have switchable hinges for right or left side hanging. Insulation and liner for minimum draught and heat loss. U-value 0.54.

A product from

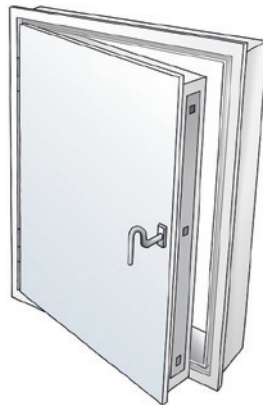

<i>Product</i>	<i>Outer frame measurements (mm)</i>	<i>Inner measurements (mm)</i>	<i>Insulation</i>	<i>U-value* (W/m²°C)</i>	<i>Fire standard</i>
LUX B1010	570 x 800	515 x 745	50mm polystyrene	0.54	no
LUX B1020	570 x 1100	515 x 1045	50mm polystyrene	0.54	no

For LUX B1010 and LUX 1020, the dimensions of the opening in the ceiling are 15-20mm larger than the specified outer measurements.

*U-value determination carried out by SP Technical Research Institute of Sweden.
